PROFESSIONAL EXPERIENCE

Founder & Lead Architect

Razyyn AI (Autonomous Accounting SaaS) – Remote

Aug 2026 – Present

- Architected and developed the multi-agent AI system (LangGraph orchestrator, 6 accounting desks) and async FastAPI backend.
- Engineered all client integrations: native Frappe apps (v14/v15), native Odoo modules (v17/v18), React/Vite admin panel, and Next.js site.
- Implemented 10-tier bank reconciliation, AST SQL query isolation (**sqlglot**), and dual-gated transactional write safety.
- Led product roadmap, financial data modeling, sales kits, and technical marketing across the MENA region.

Software / Frappe Developer

Showsatellite (Home Appliances Retail) – Remote (Bahrain)

Mar 2026 – Present

- Develop custom **Frappe** / **ERPNext** DocTypes, server/client scripts, print formats, and automated business workflows.
- Engineered a real-time bidirectional sync engine between **ERPNext** and **OpenCart** for catalog, stock, and price sync.
- Built a logistics operations control center managing delivery time-slot scheduling, driver dispatching, and ticketing.
- Maintained customer-facing e-commerce web applications integrated with sales orders and Telegram alert webhooks.

Accountant

Minicash Furniture Company – Onsite

Feb 2026 – Mar 2026

- Managed daily accounting operations, journal entries, Chart of Accounts, and AR/AP reconciliations.

FEATURED PROJECTS

Autonomous AI & Enterprise Ecosystem (Razyyn AI)

- Razyyn AI — Autonomous AI Accountant (Founder & Architect):** Multi-agent SaaS (FastAPI, LangGraph) for ERPNext and Odoo coordinating 6 specialized desks for audits, 10-tier bank reconciliation, and guarded ERP writes.
- Razyyn AI — Native Odoo Modules (v17 & v18):** Custom Odoo addons embedding in-ERP chat UI, guarded write gateway, AST-based live row SQL filtering, and multi-company security.
- Razyyn AI — Native Frappe Applications (v14 & v15):** Custom Frappe apps providing ERPNext chat UI, multi-agent modes (Ask, Analyse, Audit), attachment processing, and granular write policy controls.

Web & Backend Architecture Projects

- File Frog — File Processing & Conversion Platform:** High-efficiency conversion engine (FastAPI, Next.js, Redis, Huey, Nginx) with chunked memory streaming, sandboxed LibreOffice CLI conversions, OCR, and zero-copy downloads.

- **Integrated E-Commerce & Enterprise Operations Platform:** Full-scale customer ordering platform integrated with ERPNext, automating sales workflows, Telegram alerts, and logistics dispatch.
- **Real-Time Synchronization Engine: ERPNext ↔ OpenCart:** Bidirectional sync engine automating product catalogs, dynamic pricing, inventory levels, and images in real time with zero variance.
- **Office Leaks — Professional Social Network:** Corporate transparency social platform built with Django and DRF, featuring company workplace reviews, culture ratings, and nested discussions.

Odoo ERP Custom Addons

- **Odoo Sales Commission Module:** Custom Odoo 17 module automating sales team commission tracking, computation rules, and payouts linked directly to invoice records.
- **Odoo Property Management Module:** Real estate addon for Odoo 17 managing property listings, pricing, owner linkages, and automated sales status transitions.
- **Odoo To-Do List & Timesheet Module:** Lightweight task management addon for Odoo 17 with task state workflows, validation rules, and timesheet logging.

Frappe Framework & ERPNext Custom Applications

- **Support Management Frappe App:** Service and ticketing app for Frappe/ERPNext managing maintenance schedules, technician visits, and service appointments.
- **Telegram Notification Frappe App:** Event-driven Frappe application sending real-time Telegram alerts with interactive inline action buttons for document approvals.
